

# User Stories for Automation Exercise Platform

## User Authentication and Account Management

### User Story 1: Register a New User

**As a new visitor**, I want to register an account by providing my name, email, password, date of birth, and address details, so that I can create a personal profile and access personalized features.

#### Acceptance Criteria:

- After signup, I see "ACCOUNT CREATED!" confirmation.
- I can opt-in for newsletters and special offers.
- Logged in status shows "Logged in as [username]".
- I can delete my account and see "ACCOUNT DELETED!" confirmation.

### User Story 2: Login with Valid Credentials

**As a registered user**, I want to log in using my correct email and password, so that I can access my account and continue shopping.

#### Acceptance Criteria:

- After login, I see "Logged in as [username]".
- I can delete my account post-login if needed.

### User Story 3: Login with Invalid Credentials

**As a user attempting login**, I want to receive an error message for incorrect email or password, so that I know to correct my input.

#### Acceptance Criteria:

- Error message "Your email or password is incorrect!" is displayed.

### User Story 4: Logout from Account

**As a logged-in user**, I want to log out, so that I can end my session securely.

#### Acceptance Criteria:

- After logout, I am redirected to the login page.

### User Story 5: Attempt Registration with Existing Email

**As a visitor**, I want to be notified if I try to register with an already used email, so that I can use a different one or log in instead.

#### Acceptance Criteria:

- Error message "Email Address already exist!" is displayed.

## **Contact and Support Features**

### **User Story 6: Submit Contact Us Form**

**As a visitor**, I want to submit a contact form with my name, email, subject, message, and optional file upload, so that I can reach out to support.

#### **Acceptance Criteria:**

- "GET IN TOUCH" section is visible.
- Success message "Success! Your details have been submitted successfully." after submission.
- Redirect to home page via "Home" button.

### **User Story 7: View Test Cases Page**

**As a user interested in testing**, I want to access the test cases page, so that I can review automation scenarios.

#### **Acceptance Criteria:**

- Navigated successfully from home page via "Test Cases" button.

## **Product Browsing and Search**

### **User Story 8: View All Products and Details**

**As a shopper**, I want to browse all products and view detailed information for a specific product, so that I can make informed decisions.

#### **Acceptance Criteria:**

- "ALL PRODUCTS" page is accessible via "Products" button.
- Product details include name, category, price, availability, condition, and brand.

### **User Story 9: Search for Products**

**As a shopper**, I want to search for products by name, so that I can find relevant items quickly.

#### **Acceptance Criteria:**

- "SEARCHED PRODUCTS" section displays related products after search.

### **User Story 10: View Products by Category**

**As a shopper**, I want to browse products by categories (e.g., Women > Dress, Men sub-categories), so that I can filter by interest.

#### **Acceptance Criteria:**

- Categories visible in sidebar.
- Category page shows confirmatory text like "WOMEN - TOPS PRODUCTS".

### **User Story 11: View Products by Brand**

**As a shopper**, I want to browse products by brand, so that I can see brand-specific items.

#### **Acceptance Criteria:**

- Brands visible in sidebar on products page.
- Navigated to brand page with visible products.

### **User Story 12: Add Review to a Product**

**As a user**, I want to submit a review with my name, email, and text, so that I can share feedback.

#### **Acceptance Criteria:**

- "Write Your Review" section visible on product detail page.
- Success message "Thank you for your review." after submission.

## **Subscription Management**

### **User Story 13: Subscribe via Home Page Footer**

**As a visitor**, I want to subscribe to the newsletter from the home page footer, so that I can receive updates.

#### **Acceptance Criteria:**

- "SUBSCRIPTION" text visible.
- Success message "You have been successfully subscribed!" after email submission.

### **User Story 14: Subscribe via Cart Page Footer**

**As a shopper**, I want to subscribe to the newsletter from the cart page footer, so that I can receive updates while shopping.

#### **Acceptance Criteria:**

- "SUBSCRIPTION" text visible.
- Success message "You have been successfully subscribed!" after email submission.

## **Cart and Checkout Management**

### **User Story 15: Add Products to Cart**

**As a shopper**, I want to add multiple products to my cart and continue shopping or view cart, so that I can manage my selections.

#### **Acceptance Criteria:**

- Products added via hover and "Add to cart".
- Verify prices, quantities, and totals in cart.

### **User Story 16: Adjust and Verify Product Quantity in Cart**

**As a shopper**, I want to increase product quantity before adding to cart, so that the exact quantity appears in cart.

#### **Acceptance Criteria:**

- Quantity updated (e.g., to 4) and reflected accurately in cart.

### **User Story 17: Remove Products from Cart**

**As a shopper**, I want to remove items from my cart, so that I can update my selections.

#### **Acceptance Criteria:**

- Product removed via "X" button, and cart updates accordingly.

#### **User Story 18: Add to Cart from Recommended Items**

**As a shopper**, I want to add products from recommended items at the page bottom, so that I can discover and add suggestions.

##### **Acceptance Criteria:**

- "RECOMMENDED ITEMS" visible.
- Product appears in cart after adding.

#### **User Story 19: Search Products and Verify Cart Persistence After Login**

**As a shopper**, I want to search, add products to cart, and have them persist after logging in, so that my session is seamless.

##### **Acceptance Criteria:**

- Products visible in cart before and after login.

#### **User Story 20: Place Order with Registration During Checkout**

**As a new shopper**, I want to register during checkout, review order/address, and complete payment, so that I can **buy** without prior account.

##### **Acceptance Criteria:**

- Register flow integrated.
- Verify address details match registration.
- Success message "Your order has been placed successfully!".
- Option to delete account post-purchase.

#### **User Story 21: Place Order with Registration Before Checkout**

**As a new user**, I want to register first, then add to cart and checkout, so that my details are pre-filled.

##### **Acceptance Criteria:**

- Account created before adding products.
- Address verified in checkout.
- Payment success message.
- Delete account option.

#### **User Story 22: Place Order with Login Before Checkout**

**As a registered user**, I want to log in, add to cart, and checkout with pre-filled details, so that purchasing is efficient.

##### **Acceptance Criteria:**

- Login before adding products.
- Address verified.
- Payment success message.
- Delete account option.

### **User Story 23: Verify Address Details in Checkout**

**As a registered shopper**, I want my registered address to appear as delivery and billing in checkout, so that details **are** accurate.

#### **Acceptance Criteria:**

- Addresses match registration info.

### **User Story 24: Download Invoice After Purchase**

**As a buyer**, I want to download an invoice after order confirmation, so that I have purchase records.

#### **Acceptance Criteria:**

- "Download Invoice" button available post-payment.
- Invoice downloads successfully.
- Integrated with registration/login flow.

## **Navigation and UI Functionality**

### **User Story 25: Scroll Up Using Arrow Button**

**As a user**, I want to scroll up using the arrow button from the bottom, so that I can quickly return to the top.

#### **Acceptance Criteria:**

- From footer (e.g., "SUBSCRIPTION" visible), arrow scrolls up.
- Top text "Full-Fledged practice website for Automation Engineers" visible.

### **User Story 26: Scroll Up Without Arrow Button**

**As a user**, I want to manually scroll up from the bottom, so that navigation feels smooth.

#### **Acceptance Criteria:**

- From footer, manual scroll up works.
- Top text visible after scrolling.
